

International Ordering & Payments

When requesting that parts be shipped internationally (any location outside of the United States, Puerto Rico, and Canada) prepayment of merchandise and freight is required in advance in all instances. The parts will be shipped on a Freight Prepaid basis via our standard freight carriers.

To place an order, follow these steps:

1. Contact Racing Beat via phone, e-mail, or fax for current pricing and a freight quote. If sending your request via e-mail or fax, include complete destination information so an accurate quote can be provided. Depending on the size, weight and package destination, Racing Beat will select a freight company that provides the most economical and expedient service from our standard carriers. If you require express delivery, please indicate this with your inquiry. All customs duties, tariffs, and other fees are the sole responsibility of the customer. **Racing Beat does not accept credit card payments for international orders.**

2. Following these procedures, send your bank wire for the quoted amount to Racing Beat's bank.

Sending a bank wire - When sending your bank wire, you are responsible for paying ALL charges associated with the funds transfer. Many international banks will collect an additional service fee from the sender (you) at the time you obtain your bank wire. It is necessary that you also include an additional \$25.00 (USD) to reimburse Racing Beat for the charges we are charged by our bank to receive your bank wire. If you do not include this additional charge, you will be required repeat the process and send another wire. This is a costly and time consuming process!!

Our Bank:	Bank of America, Anaheim Hills Branch #1043
Account Number:	10438-00690
Routing Number:	0260-0959-3
Swift Code:	BOFA US6S

3. Contact Racing Beat via phone, e-mail, mail, or fax to place and confirm your order. To expedite your order, fax a copy of the bank wire receipt that was provided by your bank. After Racing Beat confirms the receipt of your bank wire, your order can be prepared for shipment. Follow this link to print a copy of the Fax/Mail Product Order Form

If you submit your order via e-mail, you must provide your COMPLETE delivery address, telephone number(s) and a list of the parts being requested. If we have questions regarding your order, we will attempt to contact you at the telephone number(s) or e-mail address that have been provided.
